PROFESSIONAL EXPERIENCE

Software Developer & Squad Lead

Macrobond Financial - Lisbon, Portugal

September 2021 - Present

- Develop and maintain C# console applications to automate ingestion of macroeconomic data from institutional sources (ECB, IMF, Eurostat, World Bank, OECD) into internal databases.
- Maintain and improve internal backend frameworks supporting data collection and processing workflows.
- Design, develop, and enhance features in the main internal WPF-based application used by Data Analysts for data management.
- Review code and participate in technical discussions to ensure quality, consistency, and continuous improvement.
- Act as Squad Lead, facilitating Scrum ceremonies (stand-ups, planning, retrospectives) and mentoring junior developers.

Data Analyst

Macrobond Financial - Lisbon, Portugal

August 2018 - September 2021

- Administered, validated, and curated large volumes of macroeconomic data to ensure accuracy and consistency.
- Contributed to the internal automation team by building user-friendly configurations to automate data extraction processes.

CS Strategic Accounts Representative

Macrobond Financial - Lisbon, Portugal

November 2016 - August 2018

- Collected and analyzed stock data from CISCO EMEA warehouses to support quarterly Physical Cycle Counts.
- Built Excel-based models to analyze productivity in the claims department, contributing to improved operational efficiency.
